SKILLS

PROGRAMMING

- Python
- R
- C
- SQL
- JavaScript (Basic)

DATA SCIENCE / ANALYSIS

- NumPy
- Pandas
- Matplotlib
- Seaborn
- Scikit-learn

STATISTICS

- Probability
- Statistical Inference
- Sampling Techniques
- Hypothesis Testing
- Regression Analysis
- Data Analysis
- Numerical Methods

TOOLS

- Git
- GitHub
- Visual Studio Code
- Jupyter Notebook
- Microsoft Excel

LANGUAGES

- Bengali — Native
- English — Working/Professional proficiency

MUHAMMAD ABDULLAH JAMIL

STATISTICS STUDENT | DATA ENTHUSIAST

PROFILE

Statistics student at Hajee Mohammad Danesh Science and Technology University (HSTU), interested in programming, data analysis, data engineering, and machine learning. Passionate about Python, R, statistics, programming, and data-driven problem solving. Long-term goal is to build strong expertise in data engineering and machine learning while developing practical skills in statistical computing and data science.

EDUCATION

B.Sc. in Statistics	2024 - Present
Hajee Mohammad Danesh Science and Technology University (HSTU) Department of Statistics and Data Science	
Higher Secondary Certificate (HSC)	2024
Rajbari Government College	
Secondary School Certificate (SSC)	2022
Rajbari Government High School	

PROJECTS

Statistical Data Analysis

Worked with datasets using Python and statistical methods to perform data analysis, visualization, and interpretation.

Technologies: Python, Pandas, NumPy, Matplotlib

Monte Carlo Simulation

Implemented Monte Carlo simulation techniques for statistical and numerical experimentation.

Technologies: R

Scientific Calculator

Built a web-based scientific calculator with mathematical operations and a clean interactive interface.

Technologies: HTML, CSS, JavaScript

CAREER INTERESTS

- Data Engineering
- Machine Learning
- Data Science
- Statistical Computing
- Python Programming
- Data Analysis
